PROFESSIONAL EXPERIENCE

CONTRACT WEB DEVELOPER | FEB 2024 – CURRENT

- Independently developed a fully responsive WordPress site for a ballet company using Elementor Pro.
- Formulated the entire tablet/mobile layouts for a desktop-only design while implementing creative design solutions for an artistic brand.
- Built custom post types and reusable content models for iterative sections to scale development and allow the client to easily made edits.
- Integrated various external products, including marketing tools (Constant Contact forms, Poptin), performance optimization plugins, and independent web plugins to include features such as slideshows and mosaic displays.
- Applied UI/UX best practices for accessibility, intuitive navigation, and speed optimization while maintaining the core elements of the brand and design.

STAFF FRONTEND WEB DEVELOPER (ROOSTER GRIN MEDIA) | FEB 2024 – FEB 2025

- Built and maintained ~25 responsive, ADA-compliant WordPress websites using custom in-house built Vue.js templates, as well as contributing to template development.
- Frequently processed updates, error fixes and tangible web solutions for 1000+ of the company's hosted websites.
- Collaborated with designers in Figma to ensure web design is optimized for web, responsive and follows ADA compliance.
- Delivered website and product presentations, demonstrating the product to the client while gathering feedback and implementing solutions before site launch.

TECHNICAL PROJECT MANAGER (ROOSTER GRIN MEDIA) | JAN 2023 – FEB 2024

- Selected as sole project manager to lead frontend development team, internal process infrastructure, development lifecycle, website template products and all new site projects for the organization.
- Simultaneously coordinated 40+ web design and development projects.
- Oversaw administrative processes for the team such as technical infrastructure, hiring, onboarding, development stack and process, and reporting directly to the CEO.
- Regularly collaborated on web designs to match client specifications and web standards.
- Facilitated professional relationships with stakeholders to gather requirements, define project scope, and develop technical specifications.

SUPPORT WEB DEVELOPER (ROOSTER GRIN MEDIA) | SEPT 2021 – JAN 2023

- Provided web support for ~10 daily web development tickets and managed client communication via email, phone and video.
- Troubleshoot, debug, and optimize existing websites to improve performance, frequently working on custom plugins and quickly navigating through independently built websites with individual architecture.
- Maintained PHP codebases, optimized MySQL queries, and resolved hosting issues via AWS, GoDaddy, PorkBun, SiteGround, etc.
- Ensured cross-browser compatibility and responsive performance across devices.
